

When you sign up for the program, you'll get immediate lifetime access to the entire system. It doesn't expire. You get lifetime access to this whole system. So you'll get Module 1 - Fertility Activation Method 4- phase protocols, Module 2 - Fertility Activation Wellness kit, Module 3 - the Empowered Fertility Tracking program, Module 4 - the Fertility Activation Mindset kit, Bonus Fertility Boost Protocols, Bonus FAM™ for Fertility Treatment Cycle, Bonus Male Fertility Activation system, Bonus Pregnancy Support protocol, and the Bonus private FAM™ Facebook support group access. And this is a total worth of over \$12,000. But don't panic. This program is not \$12,000 or even close, but if you add in the cost of IVF, whether you're protecting your investment in your family or trying to find a more affordable way to boost your chances of pregnancy, this program is easily worth an additional \$10,000 or more on top of the inherent value of the program.

And all of the bonuses, the program cost is only \$1497. And that's, if you do the single pay in full, single payment pay in full option. And so the link to purchase the program is now being posted. So to sign up, you can click on the link to join the program now and get that immediate access. And if you do choose the one single full payment of \$1497, you'll get bonus video downloads of the fertility exercises. I understand that the full payment may not be a fit for everyone. So we did create a payment plan to help make this more accessible so that you can now prioritize and heal your fertility. So you can get started today for just four monthly payments of \$437. So you can pay \$437 today and then there'll be three more monthly payments of \$437. And really the cost is minimal compared to fertility treatments or repeated treatments.

It can save you tens of thousands of dollars, or if you were to get daily acupuncture treatments, or even weekly or biweekly, that can cost you thousands of dollars. And this program is like being able to have daily treatments, daily acupuncture treatments, because you're doing this for yourself every single day. Or if you wanted to like go rogue and say, well, I'm just gonna learn all of this myself and spend five years training then that would cost you \$50,000 to a hundred thousand dollars, but you don't have to do that. Because I did all of that for you and I condensed it and made it into really easy videos for you to follow, to help you get pregnant.

Now I wanna tell you about the Fast Action Bonus. This is only if you buy on the webinar. So once we hang up and this masterclass is over, this won't be available anymore. But if you do decide to join the program while we're still on this masterclass together, you're going to get 12 weeks of live video group coaching. So with this, you're getting live mentorship for a full three months from my FAM™ certified coach Jen, and she's amazing. I'm gonna introduce you to her in just a moment. She used the program herself to get pregnant and get her cycle back. And she's so passionate about helping women and I personally trained her. So she knows exactly how to support you, how to advise you to use this program. So if you're somebody who needs that hand-holding and some ongoing, personalized support and guidance, this is where you're going to get that.

It's 12 weeks of live video group coaching. You're also going to be there with other women who have very similar issues. You're going to learn so much from each other's questions and from just being in a community together. But you will get the personalized answer to your questions for your situation

through this bonus. And this alone is a value of just about \$2,000. So to get this bonus, click on the link that has been posted here to sign up and make sure you do that before the end of this webinar before we hang up. You see it takes three months to see changes in our bodies and it takes three months for our eggs to mature. So this is the benefit of group coaching for that duration to walk with you during these changes and you're fully supported as you navigate this. If all this did was buy back a year of your time, stressing about getting older and trying to figure out how to get pregnant on your own, would that be worth it?

And I would ask yourself if all this did was increase your energy and balance your hormones, improve your digestion and help you sleep better and give you a sense of control on this journey and improve your long-term health. Would that be worth it? And if all this did was give you a community of women to help each other, succeed on this journey and get the support that you need, would that be worth it? There's really so much value that comes with this program, let alone how it can help you be successful in getting pregnant within just a few months. So here's another success story. This time from a long-time client of mine named Miriam. She used my program to help her conceive both of her children. She says, I found Heidi in 2014 when I was trying for our first child, I luckily got pregnant.

She was one of my very first FAM™ clients. And she said, I luckily got pregnant using Heidi's program after nearly two years of trying and was so helpful. Then I spent time trying for a second. This took us longer. And I ended up on a path where we chose egg donation. Luckily for us, we were successful on the first try. So it also does support those of you who do go the route of egg donation. And here are pictures of her, two blessings, Rebecca and Lennon. And she says that her family is now complete. Miriam's story is proof that the Fertility Activation Method™ has stood the test of time. This has been around for eight years. So I've been helping women do this for eight years with this program. Also you can use the program to help you conceive multiple babies, but without having to pay for it again and again for each baby, because you get lifetime access.

Definitely can't say that about IVF. So who's a good fit for this program? Well, any woman trying to conceive is a good fit and that's even if you're over 40, even if you have poor egg quality, even if you've had failed IVF or IUI cycles, even if you have diminished ovarian reserve or PCOS or fibroids or polyps, if you have unexplained infertility, if you have low AMH or high FSH, if you have endometriosis, if you've miscarried before, or if you have other complicated conditions, basically, if you wanna have a baby, this is where you need to be. Although, you know, we can help almost every woman who is trying to conceive no matter her issue. There are some cases when the FAM™ program may not be a good fit for you. These would include if you're over 50 and or have already completed menopause, or if both of your tubes are severely blocked and you do not plan on using medical intervention, such as surgery or IVF to overcome this, we can help you if only one tube is blocked or if you're doing IVF and you wanna support your cycle using FAM™ for a better outcome.

In some cases, if both of your tubes aren't severely blocked or maybe blocked because of spasm or fluids, then the FAM™ program might be able to help you conceive naturally and help you unblock those tubes. Lastly, FAM™ isn't a fit for you if you're not willing to actually make use of the program and follow

it in that case, I really wouldn't want you to waste your money after all the program can only work if you commit to it. So to recap, you'll get Module 1 the Fertility Activation Method 4- phase protocols, Module 2 the Fertility Activation Wellness kit, Module 3 Empowered Fertility Tracking program, Module 4 Fertility Activation Mindset kit, the Bonus Fertility Boost Protocols, Bonus FAM™ for Fertility Treatment Cycle, the Bonus Male Fertility Activation system, the Bonus Pregnancy Support protocol, and the Bonus private FAM™ Facebook support group access. If you buy now, you'll get the Fast Action Bonus of 12 weeks of live coaching,

So you'll get a full three months of personalized coaching. And if you pay in full you'll get our downloadable exercise videos. Again, to get this bonus click on the link that has been posted here to sign up before the end of the webinar. So I would love now to introduce you to Jen real quick. Jen, would you please hop on? And Jen is our FAM™ certified coach and she's also a FAM™ success story. So Jen, welcome! Could you please say a quick, hello and tell everyone a bit about your story and how you help women in the program.

All right. Hi everyone. Like Heidi said, my name is Jen. So just a little bit about me. I started the program in 2020 and I chose to do so because I actually had not had a period for over two years straight and I really wanted to try something that would actually help me to heal my whole body as well as my fertility and nothing that I tried was working for me. And I'm sure that all of you here today can relate to that frustration. So I started the FAM™ program and the methods in the program ended up working so well for me that my hormone levels began improving almost immediately. And that was something that I had been watching for a long time through pretty frequent lab tests. So it was very exciting and very motivating for me to finally start seeing some changes.

My AMH was one of the first things that started to improve and that happened after just a few weeks, really in, in the first month of using the program. And then I got my period back just a few months after that. So I started to see, you know, things kind of starting to work you know, in my body and wake up a little bit. And it did take a little bit of time for that to manifest as, you know, a monthly cycle. And I just couldn't believe it like not only one time, but I, then I kept getting my period and it was like really amazing for me to see that this was actually working for me. So in less than one year of using the program, I did give myself, my body some time to have some healthy cycles I wanted to after so much time of not having a period.

I did, you know, intentionally not try to get pregnant immediately. I did give my body some time. So it was still less than a year though that I actually ended up becoming pregnant naturally. And I wasn't even trying. I was like, I was still kind of in that, like I think we'll give myself a little, a couple more cycles and one day I just got, I just got pregnant. I literally, we weren't even, we weren't even trying. And I remember the, the first time that I told Heidi on one of the calls and I, I, I told her, I said I got my first positive HCG test. And she was like, you mean you're pregnant? And I was like, yes, pregnant. And I was like, I couldn't even, I couldn't even bring myself to say "pregnant" because it, I had just, I thought it wasn't possible for me for so long.

I just couldn't even believe it. And I just, it, that word wasn't even in my vocabulary because it was something that had been taken out of my vocabulary by so many of the providers that I'd seen over the years that were not able to help me. And so finally Heidi helped me to believe in myself and actually have, you know, have faith in my fertility and get everything back on line. And, and I was pregnant naturally. So I was so excited about how amazing this program is and how much it helped me that I decided to apply to become the FAM™ certified coach. So I am actually an occupational therapist by trade and I have a great love of helping people to learn how to improve their own health and wellbeing. So I felt like this would be a great opportunity for me to put my skills, to use, to help people who are going through what I had gone through.

I was personally trained by Heidi and because I am a FAM™ member myself, I know the program very well and can help the other members to learn how to use the program for themselves. So my main role is to run the live weekly support calls as Heidi mentioned. And that's where members can ask questions about how to use the program. And I can, you know, share my screen and kind of help guide you through clicking, where to find different things when you're having troubles. Cuz the program is extremely extensive. Like Heidi said, all of the things that she showed you is in there. So you have to know where to click and I can help to show you where to find each of those really exciting things, including the bonuses, all of the material that she showed you.

And I can help you to navigate the program in that way. Members can also ask questions in the Facebook group and I'm usually able to respond with answers to their questions usually in about a day. So when members are not able to attend those live weekly support calls, they have the option of either writing in their question and we'll still get it even if they can't attend, they can watch the recording of the call where I answer their question or they can interact with me on that Facebook group and ask their question. And like I said, I usually am very good about responding within at least 24 hours so that they can get immediate support with whatever it is that they're having troubles with or finding in the program or any, you know, question about the program that they need some support with.

In that Facebook group, I also share fertility-related content such as dietary plans and other health related information that has to do with fertility. And in these ways I really get to know the members on a personal level and I can keep tabs on their progress and I get to, you know, monitor in real time those very exciting you know, different markers of improving their fertility that Heidi mentioned, whether it's lengthening cycles or improving hormone levels or starting to see for the first time, some fertile cervical mucus that they had never had or hadn't had for a long time and members share those things. And then the end-all, be-all for us, like Heidi mentioned is when the members are able to share in that group, their positive pregnancy tests and then continue to get support you know you know, for their, the early pregnancy support part of the program.

And then we can answer questions about that and really help them to feel confident in getting their pregnancy, you know, off to a good start and, and, you know, keeping that positive mindset and staying relaxed and continuing to use those not just the physical parts of the program, but also the mental health components of the program that I can say as somebody who recently was pregnant and had my

baby, that it, it is a very scary time, those first couple of months of, ubeing pregnant. And you definitely need to focus on your mental health as well. And this program has the tools that you need for that. So that is essentially my backstory and, and a little bit about just some of my roles that I do for the program. So thank you for your time today. Thank you for joining us on this call and taking the time to listen, uabout how, uI can help to support you in the program.

And I do hope that you all consider jumping on this journey with me, it's an incredible opportunity and I would not have my child today if it was not for Heidi. And I do wanna share my picture. Heidi shared a bunch of baby pictures. So this is my little guy, his name is Rylan. This is one of his newborn pictures where he was very, very, very small. And I, this is the funny, this is the funny one. I like to share this one because he's he's a bunny. This was for Easter. He's a little bit older than this. Now he is six months old. But you know, you can see he's getting a little, a little bigger, but he's super cute. And I love him to death and I definitely have Heidi to thank for my baby. I know that he would not be here today without her and this amazing program. So thank you everybody for tuning in.

Aw, thank you so much, Jen. Thank you for sharing all that. She really is amazing. I couldn't ask for a better coach to support everyone in my program. So this is your time. You've heard everyone else's story. Now, it's your time. Are you ready to finally get pregnant now the healthier, more relaxing and affordable way? This is your opportunity. Doors to the program, the FAM™ program, are open for the next five days only. You will continue to get the opportunity to join the program during this time. We will send you follow-up emails with link to sign up. However, the 12 weeks of live group coaching calls with Jen is available only if you sign up now on this webinar, there's a link on the presentation. You can click on that link. If you're ready to join.

When you go to the checkout page, you can choose which payment option you prefer, whether it's the payment plan or the full pay and pay securely with either a credit card or PayPal. You will also be given an option to add to the program, my Total Pregnancy Wellness program. And you can add this to your checkout cart for a special bundled price. This is my comprehensive program to support you throughout pregnancy birth and postpartum recovery, because obviously the work doesn't stop once you get pregnant and you're gonna wanna keep supporting your health and your baby's health. So once you purchase a program, within the hour, less than an hour, but definitely within the hour, you receive an email with the login credentials to the FAM™ online program. And again, you'll get immediate lifetime access so that you can start right away and it doesn't expire.

You'll have it lifetime access unless the internet breaks or something like that. And just a reminder, you need to buy now on the webinar, if you want the Fast Action B bonus of the extended 12 weeks of live group coaching calls with Jen. Once we hang up and the masterclass is over, this bonus won't be available anymore. Now, before I let you know how to get that free gift, I do wanna address some of the most frequently asked questions we get about this program. And for those of you've been waiting, whether you're watching the recording or you're on right now live, this is a perfect time to post your questions in the chat box. I know some of you've already posted questions and I have those and I will get those. And if anybody else has any questions now is the perfect time to put 'em in the chat box. So

here, uare few, uquestions that we get a lot, so I'm just gonna answer them. How much time will it take for me to see results? Should I wait to start the program until some people say until I get my period or I get, uthe lab tests back from my doctor or I go to the fertility specialist? You do not have to wait. You don't have to wait until you get your period or for any doctors results, anything like that. And the sooner you start, the better. Generally women get the best results starting in between three to six months when used daily. The soonest a FAM™ member got pregnant was after just the first month of using it. Oh, and if you're preparing for an IVF or FET cycle, I recommend doing my program for three months in preparation

And then during the cycle. However, the program can still help you immediately if you're starting a fertility treatment cycle this month or even next week, it is never too late to start. Another question I get is it's so busy. Will this take a lot of time? It's doable. I designed it for busy women. So even though there's a lot of content in there, I still design it for busy women. So who isn't busy, you can do the program for a minimum of 20 minutes a day. If that's all you got, but let's be honest. If you don't have that much time, you probably don't have time for a baby. But the truth is you're gonna make time for what you're prioritizing. So it's not too time consuming. The acupressure videos are about 15 to 20 minutes. So you can do them once a day and, and you'll still be doing, you'll be doing amazing things for your fertility.

Another question I often get, I don't understand how it works. Is it easy to do? Yes. Anyone can do it from anywhere. The program is super easy to follow. Even if you have zero experience with acupressure, you just follow along with the instructional videos while laying around on your bed or your couch. Plus my team will make sure that you know, where and how to begin and follow each step of the program and for your specific situation. So don't worry. We're here for you. All right. So again, the live Q&A is starting soon. So please put your questions in the chat box if you haven't already, and here you go, here is the information to get the free gift. Thank you so much for staying with me. So the free gift is the On-the-right track supplement checklist, and you can download it at right-track-checklist.com and it'll get delivered to your inbox. Alright, so you can join the program now by again, clicking on the link here and you can get started for only \$437 today followed by three more monthly payments of \$437. And again, if you buy now, you'll get the Fast Action Bonus of 12 weeks of live coaching. And if you pay in full, you'll get our downloadable exercise videos. So I'm just gonna leave this final recap slide up here.
