HEIDI *brockmyre*

Who's ready to change their situation today?

Type YES in the chat box if you are :)

HEIDI *brockmyre*

Meet Jane

Jane has been prioritizing her physical health and fertility but is mentally and emotionally exhausted that her efforts haven't paid off with a positive pregnancy test yet.

HEIDI *brockmyre*

Meet Jane

This is causing financial and relationship stress.

She's listening to the doctors but their solutions are not answering her problems (and sometimes, even creating MORE problems).

HEIDI brockmyre

Meet Jane

She's stuck and knows there are other things she could be doing.

She feels the pressure of her body's clock but doesn't know what else to do in her situation.

HEIDI brockmyre

Can you relate to Jane?

Type YES in the chat box if you can :)

HEIDI *brockmyre*

Meet Eva

She's also 39 years old and has had 2 failed IVF cycles.

She also felt worried and discouraged but knew she couldn't give up.

She didn't want to try to figure it out on her own so she got my help.

HEIDI *brockmyre*

Meet Eva

She finally got the answers that she needed and was able to take action following my method.

She believed in herself again and **she got pregnant naturally.**

She was able to move forward in her life feeling fulfilled.

There are two options

HEIDI *brockmyre*

Jane - Choice A

Still stressed out, looking for answers alone, not taking action

Eva- Choice B

Took action, now joyfully feeling her baby growing in her belly

HEIDI *brockmyre*

The #1 way I helped Eva have her beautiful baby boy was by showing her how to be the healthiest version of herself.

HEIDI *brockmyre*

I taught her my step-by-step method to understand what the problem was, how she could fix it and measure progress... all the way until her son was born!

HEIDI *brockmyre*

HEIDI *brockmyre*

First, I'll tell you a little about myself and how I help women like you and Jane finally have their babies.

HEIDI *brockmyre*

Before I created my 4 step method...

I wasn't having as much success as I wanted to with helping my patients get pregnant.

HEIDI *brockmyre*

Before I created my 4 step method...

It broke my heart seeing patients feel sad and frustrated.

HEIDI *brockmyre*

Emily's Story...

Then one day, about 8 years ago,
one of my patients inspired me to dig deeper...

HEIDI *brockmyre*

Emily's Story...

Emily came to me after her second failed IVF cycle.

She was 41 years old.

Emily's Story...

Her doctors had given up hope.

They told her she had to use an egg donor.

Emily's Story...

Emily felt crushed.

She wasn't ready to give up on her eggs.

Emily's Story...

Emily and her husband were skeptical
about holistic medicine.

Emily's Story...

She tried a little bit of acupuncture before
but felt like it didn't work.

Emily's Story...

But now she felt desperate and was willing to do anything, even if she didn't "believe" in it.

Emily's Story...

When she and her husband first went to the fertility doctors, they thought IVF would be a sure thing.

Emily's Story...

They felt at a loss after spending so much money
and still had no baby to show for it.

Emily's Story...

Emily decided she would try one more IVF cycle with her own eggs.

Emily's Story....

I had 3 months to work with her before her next IVF cycle. I was her last hope.

HEIDI *brockmyre*

Emily's Story...

We began her treatment plan but
progress was slow.

Emily's Story...

She felt helpless, frustrated and out of control.

Emily's Story...

One day, she asked me,
“What can I do to make better progress?”

Emily's Story...

I knew that she really NEEDED to do things at home during her daily routine to make faster progress.

Emily's Story...

But I didn't have the time during our office visits to teach her the therapies that she should be doing at home during her daily routine.

Emily's Story...

The clinical methods I used took years of training,
clinical expertise and clear instructions.

Emily's Story...

But I couldn't let her down so I worked overtime to create instructional materials so Emily could apply my method at home.

Emily's Story...

She was so grateful.

She diligently followed my instructions.

Emily's Story...

And it started to work wonders.

Emily's Story...

We noticed huge improvements.

Emily's Story...

She started believing that it **was** still possible for her to have a successful IVF cycle with her own eggs.

Emily's Story...

After two cycles following my method,
she waited for her period to start
so she can do another IVF cycle.

Emily's Story...

But Emily never made it back
to the fertility doctor.

Emily's Story...

Emily found out she was pregnant that month.

Emily's Story...

Emily went on to have a healthy baby boy named Eli.

Eli is 7 years old now.

HEIDI *brockmyre*

After Emily's success, I knew I needed to teach all my patients my 4-step method for supporting their fertility at home.

HEIDI *brockmyre*

I saw that my method worked for my other patients as well.

My success rates improved.

HEIDI *brockmyre*

My patients felt happier and in control.

HEIDI *brockmyre*

And I was happy to be getting more baby pictures!

HEIDI *brockmyre*

And now I get tons of amazing thank you messages from women all over the world!

Elisa 🇺🇸 | Dear heidi i still don't believe it but i got a positive pregnancy test after two months and half of using fam. No words can express what that means to me. I just wanted to thank u for all your support and positive energy, u have been a light in the darkness, after 4 years ttc + one failed ivf and fet, after a strong allergy to the drugs at 41 i am finally pregnant. . I am even scared to say that. Thank u again with all my heart

Bethany 🇺🇸 | I just want to say that I LOVE the FAM program. I've been doing it since May, and it is doing wonders for my health, helping me prioritize self-care and get my system balanced. I also really appreciate all the podcasts that Heidi Brockmyre has done. They are so informative and encouraging. She really knows what she's doing, and I feel that I am in capable hands. I am realizing now that my cycles have always been problematic (very painful, irregular), and I FINALLY have the tools to fix them!

This is my second month on this program and my uterine lining increased from 6.50mm to 8mm 🥰👶

I just found out I am pregnant. So excited and scared. But thank you for helping me to calm down and relax. Rebecca

Hi Heidi,

I've used your immune boost and digestive acupressure protocols to help recover from a stomach bug and it's massively helped me rebalance. Thank you 🙏

Hello! I'm 37 about to be 38. My stress levels were through the roof for years, and it got my body out of balance. This is my 2nd month with FAM. The changes that I'm experiencing with this program are amazing. They are so amazing that I don't even get sad when I get my period anymore. I am finally making my health a priority. I wish everyone of you a lot of luck and I hope that we all will be sharing pictures of our little ones very soon.

HEIDI *brockmyre*

3 Myths you've probably been told about your fertility that may be sabotaging you from having your baby.

HEIDI *brockmyre*

Myth # 1

“You’re too old.”

“Your eggs are bad”

“You don’t have enough eggs left.”

Have you been told one of these?

(Type YES or NO in the chat box.)

HEIDI *brockmyre*

Your health and your fertility are resilient! Some doctors assume that your eggs and age are the problem when it may be something else.

HEIDI *brockmyre*

The real issue is often
fixable with the right knowledge. **You can**
improve your egg quality and egg quantity.

HEIDI *brockmyre*

It's important to address what's affecting your egg quantity and quality, if that is the problem. I've helped many women become more fertile in their 40's than they were in their 30's.

Hi Heidi,

I just wanted to thank you and your program, 'Fertility Activation Method' for helping me get pregnant and go on to have a healthy baby girl on 04/04/20.

I started your program in January 2019 and by July 2019 I fell pregnant at the age of 46! Previously, I had had three failed IVF treatments. Your program really helped.

Thank you so much.

Kind regards

Chhaya Kotecha-Hyatt

HEIDI brockmyre

Also, male factor infertility is often
overlooked and unaddressed.

Male factor infertility can also be improved.

The point is, most things can be addressed.

HEIDI *brockmyre*

Yes, it is true that age can affect
your fertility and eggs.

The older you are, the more time issues have to affect your health and become rooted.

HEIDI *brockmyre*

The truth is,
your fertility is a marker of your entire health.

HEIDI *brockmyre*

If you don't address your health issues now, more serious problems may develop in time. These issues may include: cancer, autoimmune disorders and/or difficult menopause

Here's the good news...

HEIDI *brockmyre*

My method teaches you how to restore your fertility AND benefits your long-term health.

HEIDI *brockmyre*

Shannon Lim-de Rooy I just turn 43, had been trying to conceive for 6 years, had fibroids removed, found I also had adenomyosis, endometriosis and hypothyroid. I tried many types of holistic medicine for more than 10years and I always believed the body can heal itself, until 2 years ago many the gynecologists tells me I have very slim chance, I am running out of time with my age, my eggs are low quality because of my age, even recommended egg donor as the best option. I felt pressured and did 2 rounds of IVF last year, which was not successful. Was supposed to go for 3rd one in March, but Corona happened and I also felt my body is just not ready for another round. I took FAM program, I felt good about getting my body into balance again, and I am in control of my body. Now I am 8 weeks pregnant, it came as a total shock to me, to be able to be naturally pregnant after hearing so many doctors having low hope on me. This totally renew my faith in my own body healing itself.. listen to your intuition and your body, it knows

HEIDI brockmyre

“I started Heidi’s program about 5 months ago because I wanted to improve my uterine lining, my FSH levels and improve my cycle overall. My AMH was 0.4 and I was diagnosed with Diminished Ovarian Reserve.

I also did her Male Fertility Protocol on my husband every day and his sperm motility went from 1% to 35% in 4 months!

Without Heidi’s program, I wouldn’t be pregnant today. It took us 8 years to get pregnant. I had 3 failed IVFs. Thanks to FAM™, I got pregnant naturally.”

- Gabi S.

Myth # 2

“If you've been TTC for 6-12 months without success, your next next step and/or only option is IVF (or other fertility treatment)”

HEIDI brockmyre

**Did your doctor
consider any other
solutions besides
fertility treatment?**

Type YES or NO :)

HEIDI *brockmyre*

Steps are skipped and issues overlooked.

Fertility treatment is then like trying to get water from a stone. For instance, were the following circumstances considered **BEFORE** suggesting fertility treatment?

Years of Birth Control Use

- Do you need to detox?
- Do you need to regulate your cycle?

HEIDI *brockmyre*

Underlying Issues

Such as:

- Endometriosis
- Nutritional deficiencies
- Hormone imbalances
- Irregular cycles
- Uterine health

What can you do to help manage or overcome these and successfully conceive?

HEIDI *brockmyre*

Lifestyle and Dietary Habits

Assessing what lifestyle factors may be affecting your fertility and how to change them.

HEIDI *brockmyre*

**Did your doctor
tell you the risks
of fertility drugs?**

Type YES or NO :)

HEIDI *brockmyre*

Don't feel bad if you didn't know. Your doctor may not have told you the risks. It's important for you to be aware of the risks so you can make the best decision for yourself.

Also, rest assured that you can help your body recover from medications. Remember, you and your body are resilient.

That being said, here are some things
to be aware of...

Birth control can
affect your
hormones,
eggs and uterine
lining.

HEIDI brockmyre

Fertility treatments
also come with risks.

HEIDI *brockmyre*

These risks include:

- hyperstimulation of the ovaries
- dangerous allergic reactions
- abnormal growths

HEIDI *brockmyre*

Synthetic hormones
increase your risk for cancers.

This study confirmed that synthetic hormones
increase the chance of breast cancer.

<https://breast-cancer-research.biomedcentral.com/articles/10.1186/bcr3040>

HEIDI *brockmyre*

I don't want to scare you.

HEIDI *brockmyre*

I want you to know that
conventional fertility treatments
aren't the only way.

HEIDI *brockmyre*

Sometimes they are necessary and helpful. But
they should be used as a last resort.

HEIDI *brockmyre*

They do not address the root of your health and fertility issues. They should not replace addressing the root of your health and fertility issues.

If you address the root of your health and fertility issues, you may not need fertility treatment.

HEIDI *brockmyre*

If you address the root of your health and fertility issues, your fertility treatment can be more effective and successful.

HEIDI *brockmyre*

That means you can use less medication because they can work better and quicker. AND If you need to use fertility drugs, less is safer.

More good news...

HEIDI *brockmyre*

My method teaches you how to address the root of your health and fertility issues. My method also teaches you how to help your body recover from meds you've taken.

HEIDI *brockmyre*

Antonella's Story

- Got off the pill after years, wasn't ovulating, possible PCOS
- Fertility specialist recommended IUI
- He gave her fertility drugs to force ovulation
- She STILL didn't ovulate so he told her she had to do IVF
- Followed my method and started ovulating and got pregnant within months!

Myth # 3

“Natural/Holistic methods don’t work.”

HEIDI *brockmyre*

Did your doctor tell you holistic methods don't work?

(Type YES or NO in the chat box.)

HEIDI *brockmyre*

You may be skeptical. You may have tried natural or holistic methods before and didn't get the results you wanted.

HEIDI *brockmyre*

Your doctor may have said something negative about a natural or holistic approach. Maybe your doctor is open-minded about natural or holistic methods, but doesn't know a lot about them.

You may not know enough about it because
no one pointed you in the right direction.

HEIDI *brockmyre*

While some people can come up with fake treatments and call them “holistic,” the method I’m showing you today is rooted in real evidence and hard science. It truly is medicine.

HEIDI *brockmyre*

The truth is, holistic/natural methods should be the first thing you turn to support your fertility and health.

HEIDI *brockmyre*

Here's why...

HEIDI *brockmyre*

Conventional medical treatment often treats the symptoms without addressing the root of the problem.

This often doesn't work for treating infertility. For example, medications force your body to ovulate more eggs.

But they don't improve your egg quality
or uterine lining.

Fertility treatment
may seem like a
quick fix.

HEIDI brockmyre

Everyone wants a quick fix. But quick fixes aren't guaranteed.

HEIDI *brockmyre*

Sometimes quick fixes cause more problems, and
then those problems need fixing too.

Fertility treatments can make things worse and take more precious time. They're expensive and, more often than not, they don't work according to statistics.

Holistic methods restore your health and bring your body back into balance. Chinese medicine understands the energetics of the body and the mind-body connection whereas conventional medicine does not. And so can be effective at naturally restoring your fertility.

HEIDI *brockmyre*

Sometimes natural or holistic methods take longer,
but they have long lasting POSITIVE effects.

HEIDI *brockmyre*

Sometimes they don't take long at all.
Sometimes they are the shortest path to success!

HEIDI *brockmyre*

Either way,
the goal is achieving sustainable health.

HEIDI *brockmyre*

You may think your body is broken
because you're not yet pregnant. Your body is
actually wise!

HEIDI *brockmyre*

It knows it needs more resources before it's ready to be pregnant. Your body is protecting you and your future baby.

HEIDI *brockmyre*

Your body is waiting for the right time. When you give your body what it needs, your body will want to fall pregnant.

HEIDI *brockmyre*

You can get there.

HEIDI *brockmyre*

Brittany's Story

- TTC naturally for 1 year after one tube removed due to an ectopic pregnancy
- She tried some things on her own, like essential oils, massage and supplements but nothing really changed
- Dr. recommended fertility treatment but she wanted to avoid drugs and invasive procedures
- Using my method, she prepared her body and established a fertile cycle
- Got pregnant naturally within just a few months!

But not all natural or holistic methods are created equally. There are many trendy health fads that can be harmful.

You need to use a
proven, trusted holistic method. That's why I
base my method on Traditional Asian
Medicine.

HEIDI *brockmyre*

Billions of people
worldwide have used
Asian medicine for
thousands of years.

HEIDI brockmyre

It is not a trendy health fad. Hundreds of studies have proved it effective for countless conditions.

HEIDI *brockmyre*

Many doctors and hospitals now integrate Asian medicine in their treatment programs. Including treatment centers for cancer, addiction, stroke recovery, fertility, pain and more.

HEIDI *brockmyre*

To legitimately practice Asian medicine,
you need extensive training and licensure.

HEIDI *brockmyre*

I've personally seen it work miracles. On everything from stroke recovery, miscarriage prevention, migraines, IBS, insomnia, PTSD, stress, anxiety and more.

HEIDI *brockmyre*

Amy Brudnyak

I'm 43 yrs old and found out today I'm 5weeks 3 days 🥰. We were told we may need medical intervention to conceive and FAM was my choice . I loved the Asian medicine approach and started FAM in October 2020. Within weeks I noticed a difference, my cycles became more regular and my ovulation more on a "normal"schedule! I truly love the acupressure and am still following the early pregnancy protocols!

To recap, here's what you learned...

Myth Buster # 1

Your eggs may NOT be the issue. The real issue may be fixable. If it is your eggs, you CAN improve egg quality and quantity at any age.

HEIDI brockmyre

To recap, here's what you learned...

Myth Buster # 2

Appropriate medical diagnosis/treatment is necessary to rule out things like blocked tubes. HOWEVER, before jumping into IUI or IVF, there are several things that can get the body back on track that haven't been addressed and NEED to be addressed even if pursuing IUI/IVF.

HEIDI brockmyre

To recap, here's what you learned...

Myth Buster # 3

Holistic methods address the root of the problem. They should always be used to restore your fertility, with or without a conventional medical approach.

HEIDI *brockmyre*

Bonus Myth # 4

You have to spend \$10,000 - \$15,000 to get pregnant.

The average window for pregnancy using my program is about 3 to 6 months.

HEIDI *brockmyre*

Step 1 - Cycle Activation

In this step, you balance each phase of your cycle to activate your fertility.

HEIDI *brockmyre*

Step 1 - Cycle Activation

The foundation of your fertility relies on a balanced cycle.

Step 1 - Cycle Activation

By cycle, I mean day 1 of your period through day 1 of your next period.

Step 1 - Cycle Activation

It includes:

- your period
- pre-ovulation
- ovulation
- implantation

Step 1 - Cycle Activation

Your egg health depends on a balanced cycle.

Step 1 - Cycle Activation

So does your egg quantity.

Step 1 - Cycle Activation

Your cycle needs to be activated and in balance for implantation to happen.

Step 1 - Cycle Activation

Your cycle needs to be activated
to have a lasting pregnancy.

Step 1 - Cycle Activation

Your cycle needs to be activated for fertility treatment success.

Step 1 - Cycle Activation

Once your cycle is tuned up, your body is ready for pregnancy.

Rita's Story

- 42 year old surgeon, failed IVF cycle
- Told she had bad eggs and not many left (Poor Egg Quality and Diminished Ovarian Reserve) and low AMH
- Recommended that she use an egg donor
- Balanced her cycle with my method
- She got pregnant naturally within 2 months!

Tania

2 hrs

After only 14 days following the protocol, my period came this morning after nearly 3 months being AWOL. So excited, even my partner is celebrating with me 🤪 😄

We all have our challenges, and it's tough but stay positive and open everyone. Xx

HEIDI brockmyre

Step 2 - Pregnancy Priming

In this step, you prime your body and womb to support pregnancy.

HEIDI *brockmyre*

Step 2 - Pregnancy Priming

Your body and womb must be ready to support a healthy pregnancy.

Step 2 - Pregnancy Priming

The right daily habits can help your body's readiness for pregnancy.

Step 2 - Pregnancy Priming

You incorporate pregnancy priming lifestyle habits into your daily routine.

Step 2 - Pregnancy Priming

With consistency, your body and womb have what they need to succeed.

Jenny's Story

Heidi - I found your program a couple months ago after 3 unsuccessful embryo transfers. I have one 2-year-old daughter via IVF, so I had not expected to have so much trouble this time. After 3 fails/miscarriages, I went online in search of something I could do to help myself, and I found your program. I only had a month before doing the next IFV transfer, so I committed to doing everything I could with acupressure, diet, zen yoga, warm foods and clothes, castor oil, etc. The only thing I didn't do was the moxa. I just got my first HCG results back, and my levels are 700. What a hugely positive first test!! I'm so thankful for your program's acupressure program for helping me doing something proactive rather than just passively waiting and hoping! Thank you so much! I have a second test in a few days, and I will report back.

Hi Heidi and Team,

Yes, there are already improvements and I am only in the program for a week and half. Letting you know that I feel:

no night sweats

increased energy

improved sleep

less headaches

don't know yet on longer follicular or luteal phases. Hope it improves.

Thank you!

Step 3 - Pregnancy Path Tracking

In this step, you track your progress so that even if you're not pregnant this month, you know you're on the path to pregnancy.

HEIDI *brockmyre*

Step 3 - Pregnancy Path Tracking

“If you can’t measure it,
you can’t improve it.”

Step 3 - Pregnancy Path Tracking

“If you can measure it,
you can improve it.”

Step 3 - Pregnancy Path Tracking

First you need to know what to measure and
how to measure it.

Step 3 - Pregnancy Path Tracking

When you know you're on the right path,
you feel confident about being on it.

Step 3 - Pregnancy Path Tracking

There are specific markers to measure improvements with your fertility.

Step 3 - Pregnancy Path Tracking

These specific markers also show you exactly what changes to make.

Step 3 - Pregnancy Path Tracking

By tracking your progress, you feel more confident about what you are doing.

Step 3 - Pregnancy Path Tracking

You won't feel so devastated by your period or a negative pregnancy test in the meantime

Bethany ■ ■ ■ I am over the moon today! I am on day 2 of my period, and I have not taken any pain killers yesterday or today. I have energy and mild (mangeable) cramping, which is night and day from how my periods have been my whole life!! Normally I'm practically overdosing on painkillers, writhing in pain in bed, unable to work, etc. The only explanation is that Heidi's program is working for me! I've been doing it for 3.5 months, and it's also clearing up a chronic yeast infection I've had since my miscarriage 5 months ago. It's helping me sleep better too! I am super optimistic that I'm on the right path towards having my baby.

Paula   Hi Heidi, I just did my 1 month follow up on the Self Assessment Tracker and there are significant improvements throughout. Very happy with this! I still need to focus on Digestion & Hormones as experiencing the most symptoms in these two areas but overall the change in symptoms is noticeable.

Step 4 - Keep-the-Faith Mindset

In this step, you use tools to keep your faith while on your path to motherhood.

HEIDI *brockmyre*

Step 4 - Keep-the-Faith Mindset

After many disappointments, it's difficult to believe in your body.

Step 4 - Keep-the-Faith Mindset

This causes more feelings of sadness, frustration, worry and anger.

Step 4 - Keep-the-Faith Mindset

When you're overwhelmed by difficult feelings,
it's harder to stay motivated.

Step 4 - Keep-the-Faith Mindset

And it just doesn't feel good.

Step 4 - Keep-the-Faith Mindset

You deserve to feel good on this journey.

Step 4 - Keep-the-Faith Mindset

Sure, there will always be ups and downs.

Step 4 - Keep-the-Faith Mindset

But they don't have to be so drastic.

Step 4 - Keep-the-Faith Mindset

The more centered you feel,
the less stressed out you feel.

Step 4 - Keep-the-Faith Mindset

The more relaxed you feel,
the easier it is to balance your hormones.

Step 4 - Keep-the-Faith Mindset

It's not always easy
staying positive during this journey.

Step 4 - Keep-the-Faith Mindset

This step encourages a new perspective
and a calmer mind.

Step 4 -

Keep-the-Faith Mindset

Anna Kostyuchek 🖐️ Hello! I'm 37 about to be 38. My stress levels were through the roof for years, and it got my body out of balance. This is my 2nd month with FAM. The changes that I'm experiencing with this program are amazing. They are so amazing that I don't even get sad when I get my period anymore. I am finally making my health a priority. I wish everyone of you a lot of luck and I hope that we all will be sharing pictures of our little ones very soon.

To Recap

4 Step Method to Reset Your Fertility...

-  **Step 1:** Cycle Activation
-  **Step 2:** Pregnancy Priming
-  **Step 3:** Pregnancy Path Tracking
-  **Step 4:** Keep-The-Faith Mindset

This can work for you you even if...

- You've had failed fertility treatments
- You're over 40
- You've miscarried before
- You've "already tried everything"
- You don't have time
- You have a complicated case
- You've never done anything like this before

HEIDI *brockmyre*

If you don't take action...

- More time will pass
- You may lose more money on expensive fertility treatments
- Your fertility issues can't get better
- Your health issues could get worse
- You'll feel more hopeless and helpless

Large Intestine 11

- Good one for priming for pregnancy
- Helps detox both the liver and the intestines
- Regulates digestion
- This point also helps regulate fluid metabolism in the body, which helps prevent or resolve cysts. And it helps to reduce inflammation by clearing heat from the body.
- When it's used with other points, it works even better.

“After 2 failed IVFs, my doctor gave up on me. I was diagnosed with Stage 4 Endometriosis, PCOS and hypothyroidism. At 37 years old, my AMH was only .3 and I had 3 miscarriages. **But I didn't give up.** I followed all of Heidi's advice to the tee and now have my beautiful son who is a miracle. I have you always to thank, Heidi.”

****MENTS****

A little backstory: I am 32 years old. We have been ttc for 4 years, I have PCOS, the MTHFR gene mutation and hypothyroidism. I have never been able to get pregnant.

I have been following Heidi's program for months since COVID hit as our IVF cycle was put on pause. We were fortunate enough to have it started back up. I was feeling so much better with far less pain during periods and even my short cycle lengthened to a normal timeframe!

Well our Frozen embryo transfer was last week and I am thrilled to announce that WE ARE FINALLY PREGNANT! 🙏

I don't doubt that this program helped me immensely to conceive! Thank you [Heidi Brockmyre!](#)

HEIDI *brockmyre*

Katja Hi, I use the program since april. It's now the 2nd period after my last miscarriage in june. My period has improved. I have no pain at all, no cramps and no clots, just pure blood with a little mucus. Only a little lower back pain. I am really thankful. Usually I need painkillers. I hope to get and stay pregnant soon! Good luck everybody 🍀

I had the energy to get back to work one week after starting FAM (2x daily) for the first time in several months!

The videos are easy to follow, easy to access 2x daily after downloading to my desktop, and a doable length.

I find the background music to be soothing and helps me relax into the treatment. I feel like I'm a pro at finding the acupressure points because you explain it well, and I can really feel the sensitive spots." -Heidi E.

I am too!! 😊 After 3 rounds of IVF, with multiple eggs collected, and non making it to viable transfer stage, I then followed the program for 3 months before my 4th egg collection and had 3 eggs make it to blastocyst stage!! With success on the first egg transfer, I am now 6 month pregnant!! Thanks so so so much to Heidi, I sincerely believe that the pressure points and supplement guide made all the difference. We were advised after our 3rd round of IVF to use an egg donor, but felt we should give it one more go, and thanks to the FAM it worked!! Xx

Who's a good fit?

Any woman trying to conceive, even if...

- You're over 40
- You have poor egg quality
- You've had failed IVF or IUI cycles
- You have diminished ovarian reserve
- You have PCOS
- You have fibroids or polyps
- You have low AMH or high FSH
- You have endometriosis
- You've miscarried before
- You have other complicated conditions

HEIDI *brockmyre*

Who's NOT a good fit?

- If you've gone through menopause and/or over 50 years old
- If both of your tubes are severely blocked and you are NOT pursuing medical intervention (we can help some cases of blocked tubes)

FAQs!

Q.: How much time will it take for me to see results? Should I wait to start until....?

A: The sooner you start, the better. Generally women get the best results starting at between 3-6 months when used daily. The soonest a FAM™ member get pregnant was after the first month. .

If preparing for an IVF or FET cycle, I recommend doing my program for 3 months. However, the program can still help you immediately if you're starting a fertility treatment cycle this month. It's never too late to start.

HEIDI brockmyre

Q: I'm so busy. Will this take a lot of time?

A: It's doable! I designed it for busy women. Who isn't busy? You can do the program for a minimum of 20 minutes a day. In less than 5 minutes or 10 minutes you can go through the protocol that will best support your fertility health. Let's be honest...if you don't have that much time, you probably don't have time for a baby.

HEIDI *brockmyre*

Q: I don't understand how it works. Is the program easy to do?

A: Yes! ANYONE can do it from anywhere! The program is super easy to follow, even if you have zero experience with acupressure. You just follow along with the instructional videos while laying around on your bed or couch! Plus my team will make sure you know where and how to begin and follow each step of the program.
